| Applied Research and Development in Forensic Science for Criminal Justice | | With this solicitation, NIJ seeks proposals for applied research and development projects that will: (1) increase knowledge or understanding necessary to guide forensic science policy and practice or (2) result in the production of useful materials, devices, systems, or methods that have the potential for forensic application. The intent of the Applied Research and Development in Forensic Science for Criminal Justice Purposes Program is to direct the findings of basic scientific research, research and development in broader scientific fields applicable to forensic science, and ongoing forensic science research toward the development of highly discriminating, accurate, reliable, cost-effective, and rapid methods for the identification, analysis, and interpretation of physical evidence for criminal | | H.R. 4640 (106th): DNA Analysis Backlog Elimination Act of 2000. To make grants to States for carrying out DNA analyses for use in the Combined DNA Index System of the Federal Bureau of Investigation, to provide for the collection and analysis of DNA samples from certain violent and sexual offenders for use in such system, and for other purposes. Also see: 42 USC § 14135 - The Debbie Smith DNA Backlog Grant Program | | |
| Purposes | OIFS | justice purposes. | Yes | Debbie Silitii DIVA Backlog Grafit Frogram | No | N/A |
| Applied Technology Research and Development for Criminal Justice Purposes | OST | NIJ seeks proposals for applied technology research and development projects leading to the introduction into practice of improved technologies for use by law enforcement, courts, and corrections agencies. NIJ is particularly interested in (1) the application of expert systems technologies to enhance the performance of non-expert practitioners and (2) improved devices to locate and track offenders that are under supervision in the community. NIJ will also entertain proposals for applied technology research and development to meet other demonstrated, high-priority needs of law enforcement, courts, and corrections agencies. | No | N/A | N/A | N/A |
| Applied Technology Research and Development to Optimize Criminal Justice Use of Social Media in the "Web 3.0" Environment | OST | NIJ seeks proposals for research and development leading to the introduction into practice of needed technologies to enhance the ability of criminal justice agencies to use social media as "Web 3.0" continues to develop and mature. | No | N/A | N/A | N/A |
| Basic Scientific Research to Assess Youth with Sexual Offending Behavior | ORE | NIJ seeks proposals for basic research in the development and validation of a risk assessment tool with both static and dynamic factors for juveniles who commit sex offenses and is designed for use in criminal and juvenile justice systems. | No | N/A | N/A | N/A |

| Basic Scientific Research to Support Forensic Science for Criminal Justice Purposes | OIFS | With this solicitation, NIJ seeks proposals for funding basic scientific research in the physical, life, and cognitive sciences that is designed to increase the knowledge underlying forensic science disciplines intended for use in the criminal justice system. | Yes | H.R. 4640 (106th): DNA Analysis Backlog Elimination Act of 2000. To make grants to States for carrying out DNA analyses for use in the Combined DNA Index System of the Federal Bureau of Investigation, to provide for the collection and analysis of DNA samples from certain violent and sexual offenders for use in such system, and for other purposes. | | | | | | | |
| Building and Enhancing Criminal Justice Researcher- Practitioner Partnerships | ORE | NIJ seeks proposals for criminal justice research and evaluation that include a researcher-practitioner partnership component. Within the context of the proposed research or evaluation project, the partnerships can be new or ongoing. Results from these projects should lead to better criminal justice policy, practice, and research, including for the participating practitioner partner. NIJ intends to support criminal justice research in two areas related to new and ongoing researcher-practitioner collaborations. Proposals should fall under one of the following program areas: (1) Junior Faculty Grant Program to Promote Criminal Justice Researcher-Practitioner Partnerships, and (2) Criminal Justice Researcher-Practitioner Fellowship Placement Program. | No | N/A | N/A | N/A |

Research proposed may be focused at the federal, state, local, tribal, juvenile justice policy and practice levels. | No | N/A | N/A | N/A |
| Research on Violent Victimization | ORE | NIJ seeks proposals for research and evaluation related to violent victimization. Research proposed may be focused at the federal, state, local, tribal, juvenile justice policy and/or practice level. NIJ is particularly interested in proposals examining one or more of the following topics: (1) intersection of race, ethnicity, and violent victimization; (2) effectiveness of services for victims of violent crime; (3) victim/offender overlap as it pertains to violent crime; and (4) sexual orientation and/or gender identity and violent victimization. | No | N/A | n/A | N/A |
| Social Science Research on Forensic Science | ORE | NIJ is seeking applications for funding social science research on forensic science. Some of the forensic disciplines, particularly in the area of DNA, have experienced numerous advances over the last decade. NIJ is interested in stimulating research to examine the impact of these forensic advances on the criminal justice system and changes in policies to adapt to the greater use of forensic evidence. | No | N/A | N/A | N/A |
| Study of the Use of Residential Substance Abuse Treatment for State Prisoners Program Funds on Aftercare Services | ORE | NIJ seeks proposals for a study of the use of funds on aftercare services by the Department of Justice under the Residential Substance Abuse Treatment (RSAT) Program. The RSAT for State Prisoners Program funds formula grants to all 56 States and U.S. territories for support of residential, jail-based, and aftercare treatment services delivered to offenders with substance abuse problems by state and local providers. In 2008, Section 102(a) of the Second Chance Act (SCA) amended the RSAT Program funding legislation to require an aftercare component, and Section 102(c) mandated a study on aftercare services by NIJ. | Yes | Second Chance Act | No | N/A |
| | UNE | NIJ is seeking applications for research that explores the relationship between theory (of any discipline) and geospatial predictive policing strategies. In particular, NIJ is seeking proposals that focus on linking theories to current policing strategies, discerning potential disconnects in the levels of analysis between theory and practice, explicating what effects | Tes | Second Chance Act | INO | N/A |
| Testing Geospatial Predictive Policing Strategies | ORE | this may have on findings, and, finally, addressing means of adapting theory and practice based on the results. | No | N/A | N/A | N/A |
